

Liam Tapper

COMPUTER ENGINEER

Port Orchard, Washington | (808)457-5197 | 02Liamkwt@gmail.com

About me

Results-driven software developer with experience in designing and implementing robust software solutions. Adept at collaborating with large teams and translating complex requirements into functional software applications. Seeking to contribute to an organization where I can develop my career in Software Engineering.

Education

University of Hawaii at Manoa, BS Computer Engineering

2024

Major: Computer Engineering | Cumulative GPA: 3.38 | Major GPA: 3.60

Experience

Motojin Investment, Inc

Oct 2024 – Aug 2026

Remote: Honolulu, Hawaii

Full Stack Development

- Led full-stack development projects using Vite + React, and Python.
- Managed High-performance database operations with controlled history with Alembic.
- Created a large-scale admin interface for monitoring and evaluating user and system interaction.
 - Developed secure, role-based route guards for personalized user access.
- Introduced and integrated multiple 3rd party features to meet client needs.
 - This includes and is not limited to, Azure Products, RAG, and Graph RAG features
- Deployed a multi-agent workflow with dynamic tools, MCPs, and instruction sets.
- Written bug reports, proposals, and research papers that aid in documenting production history

Personal Project

HACC 2025 Submission

Oct 2025 - Nov 2025

- Statewide competition with real-world applications.
- Developed an application that aids staff in finding company documents through simple queries.
